

A8 Conveyor

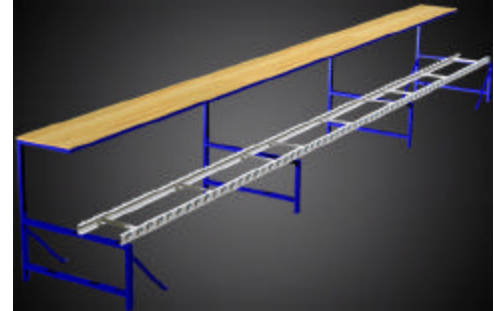

Product Information

Application:

A8 skate wheel conveyor systems provide a convenient and uniform way to prep and clean molds in your setup and cleaning areas, throughout the entire manufacturing process.

Description:

The A8 skate wheel conveyor features heavy-duty steel construction, 11 gauge galvanized steel wheel way assembly with zinc plated steel skate wheel bearings, built in utility/storage shelves, and durable Gruber blue powder coating for protection. The A8 wide skate wheel conveyor system is a modular conveyor system available in a variety of different lengths to create conveyor runs of almost any dimension.
