

A11 Conveyor

Product Information

Application:

A11 Doublewide skate wheel conveyor system provides a convenient and uniform way to move molds throughout your manufacturing process around the entire factory. Excellent for handling very large panel and tub molds.

Description:

The A11 double wide skate wheel conveyor features heavy duty steel construction, dual 11 gauge galvanized steel wheel way assemblies with zinc plated steel skate wheel bearings, and durable Gruber blue powder coating for protection. The A11 doublewide skate wheel conveyor system is a modular conveyor system available in a variety of different lengths to create conveyor runs of almost any dimension.

Product Range:

A115	A-11 conveyor 5' adder	1100450	Wheel way assembly with steel wheels, 5'
A1110S	A-11 conveyor 10' complete	110045	Wheel way assembly with steel wheels, 10'
A1110	A-11 conveyor 10' adder	1100452	Wheel way assembly with steel wheels, 12'
A1112S	A-11 conveyor 12' complete	1100449	Wheel way channel with steel wheels, 5'
A1112	A-11 conveyor 12' adder	110044	Wheel way channel with steel wheels, 10'
0830891	Knee Brace	1100484	Wheel way channel steel wheels, 12'
110011	A11 stand/1 level	110039	Standard steel wheel way wheel w nut/bolt
1100312	Support feet	1100581	Mold stop 3.5" wheel way channel

Specifications:

A11 Double Wide Skate Wheel Conveyor:

- Frame:
 - Height - 28" (to top of wheelway)
 - Width - 67"
 - Length - Available in 60", 120", and 144" modular sections for almost any length of conveyor run.
- Wheel way, left, right, and middle:
 - Width - 20 1/8" (wheel center to wheel center).
