

Multi-Level Conveyor

Product Information

Application:

Multi Level skate wheel conveyor system provides a convenient way to store or move large quantities of molds throughout your manufacturing process around the entire factory. Excellent for mold storage and post cast curing.

Description:

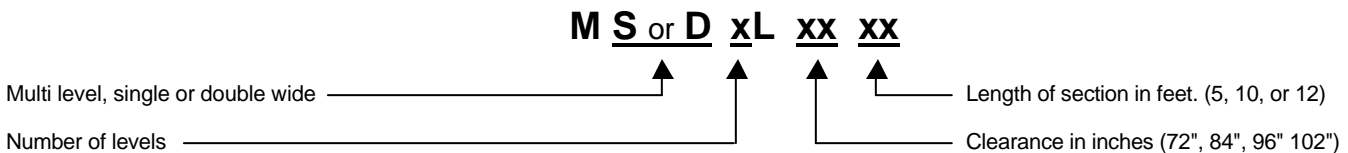

The Multi level single or double wide skate wheel conveyor features heavy duty steel construction, multiple 11 gauge galvanized steel wheel way assemblies with zinc plated steel skate wheel bearings, and durable Gruber grey powder coating for easy cleanup and protection. The Multi level single and double wide skate wheel conveyor system is a modular system available in a variety of different lengths to create conveyor runs of almost any dimension.
