

4 Leg Gantry

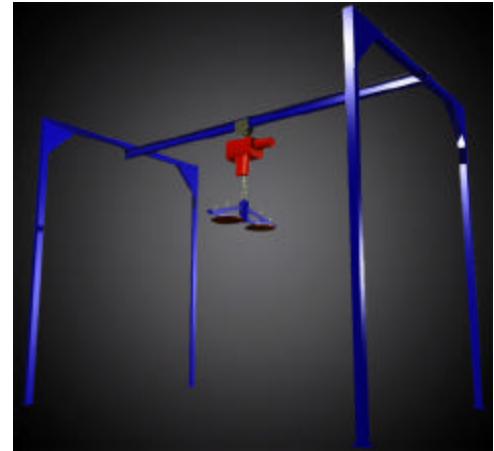

Product Information

Application:

The 4 leg gantry is designed to assist in the demolding process in cast marble or solid surface production. Utilizing lifters and hoists, the demolding gantry can greatly reduce the amount of stress and damage to the molds, as well as decreasing the time needed to demold product. Also available in the bulk bag gantry system for the Autocaster™ and Batchmaster™ casting systems.

Description:

4 leg demold gantries feature a heavy duty steel I beam, 3" tube steel legs, electric or pneumatic hoists, dual or quad cup lifters, and durable Gruber blue powder coating for protection. 4 leg demold/bulk bag gantries are available in lengths of up to 16 feet.

6 Leg Gantry

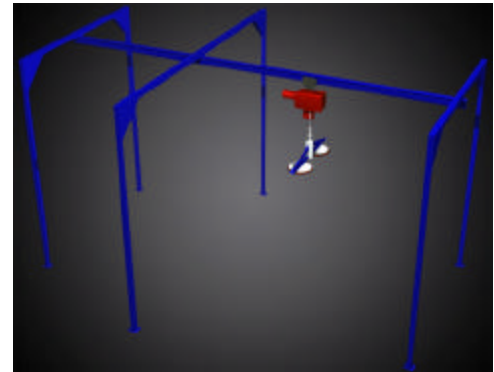

Product Information

Application:

The 6 leg demold gantry is designed to assist in the demolding process in cast marble or solid surface production. Utilizing lifters and hoists, the demolding gantry can greatly reduce the stress and damage to molds, as well as decreasing the time needed to demold product.

Description:

6 leg demold gantries feature heavy duty steel I beam construction, 3" tube steel legs, electric or pneumatic hoists, dual or quad cup lifters, and durable Gruber blue powder coating for protection. 6 leg demold gantries are available in lengths of up to 20 feet.
